3rd Biennial Conference of the Oncology Group of Pune on Peritoneal Surface Malignancy and Gynecologic Oncology

Workshop: 17th Sept 2026
Venue: Symbiosis Skills Lab, Pune

Main Conference: 18th - 19th Sept 2026
Venue: Hotel Hyatt Regency, Pune

Dear Esteemed Colleagues,

The **Oncology Group of Pune** is delighted to announce its **3rd Biennial Conference focusing on the clinical nuances of Peritoneal Surface Malignancy and Gynecologic Oncology**, to be held from **17th to 19th September 2026** as a **physical meeting** at **Hotel Hyatt Regency, Pune**.

As oncology professionals, we frequently encounter complex clinical scenarios involving **peritoneal surface malignancies**, facing challenges that lack straightforward answer. Every decision, from accurate diagnosis and staging to nuanced treatment selection and ongoing patient management, profoundly influences the lives of those affected by metastasis to the peritoneal cavity.

Ovarian cancer is perhaps the most common malignancy presenting with peritoneal metastasis in Indian women, second only to Breast cancer, Cervical and Ovarian cancer continue to remain the most common gynecological cancers. The current cancer scenario among women in the country clearly underscores the need for strengthened efforts toward early detection, timely diagnosis, and the adoption of state-of-the-art advanced treatment strategies.

Reflecting these realities, the theme of our conference, this year is **"Bridging the Gap: Deciphering Complexities and Dilemmas in Peritoneal and Gynecologic Oncology."**

The scientific program has been thoughtfully designed and promises to be highly practical. The program includes lectures, panel discussions, and a hands-on cadaveric workshop focused on peritoneal surface malignancy. Led by international and national experts, these sessions will tackle real-world challenges and ongoing clinical issues in this dynamic field.

Throughout the conference, we aim to deliberate on the nuances of peritoneal surface and gynecologic oncology head-on through rigorous scientific dialogue-sharing experiences, exchanging perspectives, and challenging existing paradigms, all aimed at enhancing patient care.

We encourage each of you to bring forward your own dilemmas and actively participate in these enriching discussions by harnessing our collective expertise and shared experiences. We aspire to develop confident, evidence-based approaches to the uncertainties encountered in clinical oncology practice.

We extend a warm welcome to the vibrant city of Pune, amidst the much-revered and celebrated Ganesh Chaturthi Festival, and look forward to an engaging, enlightening, and inspiring academic experience and also bring to you the opportunity to seek Lord Ganesha's divine blessings and grace. May our time together foster meaningful exchanges and and lasting collaborations that contribute to shaping the **future of oncology in India**.

Regards,

Organising Secretary

Dr. Snita Sinukumar

Senior consultant Surgical oncologist
Apollo Hospitals, Pune

Organising Secretary

Dr. Tushar Patil

Senior Consultant Medical oncologist,
Sahyadri Hospital, Pune
